

peace. Before Neil passed away he was living in India, surrounded by family and everything he loved in life. He was learning meditation, practicing yoga, and playing any number of sports every day.

Even though we often measure life in years, with Neil it is more fitting to measure it in terms of accomplishments. Everything Neil did, he did in splendid fashion. After graduating from Clovis West High School in 2003, he went on to attend the University of California, Irvine, and received a degree in Psychology in 2008. While at U.C. Irvine he was a member of the Crew team, a researcher in the Brain Imaging Center, and a great friend to all his classmates. His success at U.C. Irvine included receiving a patent for MEFWAY, and being awarded a 1st place prize at the Young Investigators Award by the Society of Nuclear Medicine, in Toronto. He continued his academic pursuits as a Fulbright Scholar, attending the Karolinska Institute where he continued his research in brain imaging. Soon after, he attended the University of Cambridge, in England, on a full scholarship. Neil's most notable accomplishment however was not academic, but moral—living compassionately, selflessly, and always thinking of those around him.

Mr. Speaker, please join me in remembering Neil for his thirst for life, love of nature, insatiable curiosity, humble spirit, and warm heart.

HONORING CAROLE DILLON-KNUTSON

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Ms. WOOLSEY. Mr. Speaker, I rise today to honor Carole Dillon-Knutson of Novato, CA, who is retiring after 20 years of public office. She served 16 years on the Novato City Council and four years on the College of Mann Board of Trustees, earning the appreciation of her constituents and peers for her many accomplishments that enhanced the community's quality of life.

First elected to the Novato City Council in 1994, Carole is especially proud of significant projects that she worked with colleagues to create including the Novato Arts Center, the Gymnastics Center, several development projects at the former air field at Hamilton from a large wetlands restoration to transitional housing, improvements on Grant Avenue (the city's downtown artery), restoration of City Hall, and refurbishment of the Novato playgrounds.

Carole also represented the community on key boards and commissions such as the Association of Bay Area Government's Executive Committee, the North Bay Division of the League of California Cities (President in 2001), the Marin County Council of Mayors and Council members (President in 2004), the Transportation Authority of Marin Executive Committee, and the Sonoma Marin Area Rail Transit Agency Board.

Carole says she feels "a deep comfort in the priorities and accomplishments that I originally set as my goals: to create a balanced approach and focus on the quality of life issues so important to the residents of Novato."

Mr. Speaker, I know Carole-Dillon Knutson is looking forward to spending more time with her family, including five grandsons. Please join me in congratulating her on her years of service and in wishing her well in her retirement.

OPENING REMARKS FOR THE
SCREENING OF THE LAST MOUNTAIN

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Mr. KUCINICH. Mr. Speaker, I submit the following. Thank you for coming this evening and welcome. I am excited to introduce to you The Last Mountain and I am proud to host its screening. It left quite an impression on me when I saw it and I trust it will do the same for you.

Scientific research shows that Mountaintop removal mining is devastating to both the environment and the health of Appalachian communities. It has created a water quality crisis in streams where the debris and spoil from mining sites have been dumped. It has created an environmental crisis for aquatic life in those streams and for the most biologically diverse forests in the world, which are being systematically destroyed by Mountaintop removal.

Mountaintop removal mining has created a public health crisis for people depending on those streams. The research shows that Appalachian residents of areas affected by mountaintop mining experience significantly more unhealthy days each year than the average American; and women who live in areas with high levels of mountaintop coal mining are more likely to have low birth-weight infants and poor birth outcomes.

Not only is mountaintop removal mining environmentally harmful, but it is actually a job destroyer, not a job creator. Studies have shown that mountaintop removal mining has actually had a negative impact on Appalachian employment. Because Mountaintop removal mining relies on enormous machines instead of individual, skilled miners, the number of mining jobs needed to produce each ton of coal has been drastically reduced. Mountaintop removal mining is essentially eliminating the miner from coal mining, contributing to a decrease in mining jobs.

In 1948, there were 126,000 coal-mining jobs in West Virginia and 169,000,000 tons of coal mined. In 2010, however, only 20,000 of these jobs remain despite the fact that almost the same amount of coal—144,000,000 tons—had been mined. This job loss did not result from any regulation. Instead, it occurred because coal companies themselves have replaced workers with machines and explosives. The evidence is clear: mountaintop removal mining destroys both mountains and jobs.

Coal mining in general has experienced a diminishing share of employment in Appalachia as well. The cause is falling demand for coal. According to the Federal Reserve, the capacity of already permitted and active coal mines set an all-time record in 2010, while the utilization of that capacity was at a 25-year low. So, while enough permits have been approved to achieve a new record level of coal

mine capacity, there is simply not enough demand for all of the coal that these mines can produce. Demand for coal, or the decision by consumers to use cleaner, more energy efficient forms of energy, is not something the EPA controls. It is a decision by made by electric generating plant operators and investors. Increasingly, they have chosen to fuel their power plants with natural gas, rather than coal.

Just last week, a study in the prestigious American Economic Review found that the damage from coal-fired electrical plants costs more than twice as much as the electricity they generate. Coal plants wreak \$53 billion worth of damage per year, not considering the enormous harm from climate change.

The Environmental Protection Agency is in the process of trying to fulfill its duty to increase scrutiny of Appalachian mountaintop mining permits. The efforts in the House to undermine the EPA are wrongheaded. I have fought them on the floor and I have fought them as Ranking Member of the Subcommittee on Regulatory Affairs, Stimulus Oversight and Government Spending of the Committee on Oversight and Government Reform. And I will continue to fight to stop not only mountaintop mining, but also coal.

Coal-based energy creates ponds of ash that are so toxic the Department of Homeland Security will not disclose their locations for fear of their potential to become a terrorist weapon; it fouls the air and water with sulfur oxides, nitrogen oxides, particulates, ozone, mercury, polycyclic aromatic hydrocarbons, and thousands of other toxic compounds that cause asthma, birth defects, learning disabilities, and pulmonary and cardiac problems . . . for starters.

In contrast, several times more jobs are yielded by renewable energy investments than comparable coal investments. We must redirect the resources of this great nation away from things like war and counterproductive spending cuts and toward creating millions of new jobs in the economic sector of tomorrow; green energy. I will be introducing a bill to create a Works Green Administration which will harness the innovative power of NASA to help create, refine, and ready for distribution the very technologies that put the power in the hands of the people. It will put people to work promoting and installing wind and solar micro-technologies, energy efficiencies, and much more.

Until then, I hope you enjoy the screening tonight. Thank you for your interest and for your time. I look forward to working with you to save mountains, streams, forests, and livelihoods.

IN RECOGNITION OF FATHER
DANIEL G. CAHILL

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Mr. PALLONE. Mr. Speaker, I rise today to congratulate Reverend Daniel G. Cahill. On September 17, 2011, Father Dan will be recognized as Festival Chieftain at the Irish Festival at the Jersey Shore in Sea Girt, New Jersey. Father Dan continues to provide outstanding spiritual guidance for the members of

the Monmouth County community. His exceptional service is highly deserving of this body's recognition.

Father Dan, fondly referred to as "Donnie" by his family and peers, was the third of six children raised on a small farm in the village of Gortdarrig, County Kerry in Ireland. At the age of thirteen, Father Dan was enrolled at St. Brendan's Seminary in Killarney, Ireland. His attendance at this prestigious institution later influenced his future decision to become a priest. Upon graduation from St. Brendan's, Father Dan entered All Hallows Seminary College in Dublin, Ireland, an organization recognized for preparing men to serve as missionary priests in foreign countries. During his time in the Seminary, Father Dan also spent a summer abroad working in various New Jersey parishes alongside the late Father Thomas O'Connor, former Pastor of St. Robert Bellermino in Freehold, New Jersey. His positive experience serving in New Jersey later influenced his decision to accept a position as a recruit from the Diocese of Trenton. Father Dan was ordained on June 17, 1973 at the age of twenty-four. He served for many years in the parishes of St. Anthony of Padua in Hightstown, New Jersey and St. Anthony in Trenton, New Jersey. In 1989 he became the Pastor of St. Ann's Church in Browns Mills, New Jersey. Father Dan currently presides as Pastor of the Church of St. Ann in Keansburg, New Jersey and has held this position since 1995.

In addition to his work with the ministry, Father Dan provides spiritual guidance to various Christian organizations, specifically the Ancient Order of Hibernians, AOH. He served as the New Jersey State AOH Chaplain for nineteen years during which time his outstanding spiritual leadership assisted the organization to fulfill their motto of Friendship, Unity and Christian Charity. He continues to serve as the Chaplain for the Ancient Order of Hibernians Pat Torphy Division—Monmouth 2, located in Middletown, New Jersey, and hosts an annual mass in recognition of those lost during the Great Hunger. Father Dan also serves as the Chaplain of the Knights of Columbus Vincent T. Lombardi Council.

Mr. Speaker, once again, please join me in congratulating Father Daniel Cahill for receiving the esteemed title of Festival Chieftain at the Irish Festival at the Jersey Shore. His extraordinary spiritual leadership continues to guide Monmouth County Bayshore community, my district, and the State of New Jersey.

RECOGNIZING ITMC SOLUTIONS,
LLC OF BRISTOW, VA

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize ITMC Solutions, LLC, of Bristow, Virginia, for its acceptance into the National Center for the Veteran Institute for Procurement, VIP.

ITMC Solutions is a woman-owned, veteran-owned, minority-owned, small business supplier of management consulting and technology solutions to the federal government, specializing in identity solutions, program management, portfolio management and applica-

tion development, deployment, modernization and maintenance.

VIP, a program of the Montgomery County Chamber of Commerce, is the country's first-ever program to train veteran small business owners to succeed in the federal contracting market. VIP has helped more than 200 veteran-owned businesses win government contracts and continues to actively serve veterans by connecting top executives of veteran owned small businesses with leaders in government and industry.

Mr. Speaker, it is a great honor to be accepted into this program and I ask that my colleagues join me in recognizing ITMC Solutions, LLC for its accomplishment.

THE 100TH ANNIVERSARY OF THE
REPUBLIC OF CHINA (TAIWAN)

HON. JUDY CHU

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Ms. CHU. Mr. Speaker, yesterday, October 10th marked the 100 year anniversary of the Republic of China (ROC).

And how the ROC has grown over the years since the 1911 Revolution! The state played a vital role as a founding member of the United Nations and contributed to the drafting of the Universal Declaration of Human Rights, infusing into it the spirit of Confucianism. And it drafted the most progressive and democratic constitution in Asia. And finally, the state found solid footing on the island of Taiwan in 1949. It has successfully transitioned into a liberal democracy and become the first democratic state in an ethnic Chinese society in history.

Today, the ROC is a model of political and economic progress for developing nations around the world. It is a modern and industrialized nation, an early adapter and proponent of a global and interconnected marketplace. Taiwan, Asia's first Economic Tiger, embraced market reforms in the 1950s and quickly launched some of the best known, and most efficient, original equipment manufacturers (OEMs) that came to serve many U.S. multinationals. Today's Taiwan is a technology powerhouse and the island's firmly entrenched in the top tier of developed world markets.

And while many other markets turn inwards when economic times are tough, Taiwan's almost always kept its trade and investment doors open. A founding member of the Asia Development Bank in 1966, the ROC on Taiwan joined the World Trade Organization (WTO) in 2001. It further acceded to the WTO's Government Procurement Agreement (GPA) in 2009.

And since 2008, Taiwan President Ma Ying-jeou has removed many of the longstanding trade and investment barriers to mainland China, resulting in Taiwan now best positioned serving as a global gateway to the Greater China market. This new outlook culminated in last year's signing of the Economic and Cooperation Framework Agreement between Taiwan and mainland China. Foreign firms can now access mainland China's vast economic potential from the comfort and safety of a Taiwan market that's among the friendliest in the world to U.S. companies and one that also values and protects their intellectual property.

As we celebrate this hundred years of history, let us recall that the ROC of today has come about thanks to generations of people who have fought for social reform and a democratic future.

And as the Republic of China embarks on a new century, I hope it will be a model democratic nation for the world and continue to grow and prosper. I therefore urge all my colleagues to join me in congratulating the Republic of China on its 100 years of existence, Taiwan's many economic achievements since 1949, and to further support enhanced economic relations between the United States and Taiwan.

OUR UNCONSCIONABLE NATIONAL
DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Mr. COFFMAN of Colorado. Mr. Speaker, today our national debt is \$14,860,324,039,615.03.

On January 6, 2009, the start of the 111th Congress, the national debt was \$10,638,425,746,293.80.

This means the national debt has increased by \$4,221,898,293,321.23 since then. This debt and its interest payments we are passing to our children and all future Americans.

IN RECOGNITION OF ARTHUR J.
MCCLUNG, JR.

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 11, 2011

Mr. BISHOP of Georgia. Mr. Speaker, I rise today to pay tribute to one of Morehouse College's most distinguished graduates and accomplished alumni, Mr. Arthur J. McClung, Jr. I am very happy to point out that earlier this year Morehouse College President, Dr. Robert M. Franklin, presented Mr. McClung with the school's Presidential Award of Distinction in recognition of his many outstanding professional achievements, unyielding support for his alma mater and heartfelt philanthropic endeavors.

As a graduate of Morehouse College and as one who matriculated at Morehouse during the same period as Mr. McClung, I am very proud to call him a fellow alumnus and personal friend. As a dedicated family man, successful business professional and role model for young African-American men, Arthur J. McClung, Jr. has worked tirelessly to effectively balance his multitude of roles of being a loving husband, committed father, skillful senior executive and dedicated community leader.

Arthur J. McClung, Jr. is a native of Columbus, Georgia, the perennial site of this weekend's 76th Annual Tuskegee-Morehouse Football Classic. This classic is one of our nation's longest running football rivalries and Mr. McClung, Jr. along with his father, the late Arthur "A.J." McClung, Sr., have played instrumental roles in this beloved event's ongoing success. The stadium that has hosted this game since its inception is named in honor of the late A.J. McClung, Sr.
